PROJECTS

Future Hope School in the Sky   View GitHub

Web app for volunteers to train to be remote mentors to under-served students in Ghana

React.js | Redux | Material-UI | Google Cloud Firebase Firestore | Cypress

- Collaborated remotely with a cross-functional team of 6 to develop a functional app within 8 weeks
- Accountable for creating training components, unit testing, integrating components to Redux store
- Responsible for providing detailed presentations to the Stakeholder on project progress

Dungeon of the Haunted Forest   View GitHub

An interactive Multi-User Dungeon (MUD) client and server

React.js | Python | CSS3

- Built over 5 days remotely with a team of 4 developers
- Responsible for building the map, rooms, and enemies in the server, as well as the map

---

WORK EXPERIENCE

Jan 2020 – Present   Team Lead

Lambda School – Remote

- Provide daily feedback and issue resolution of all curriculum through slack and code review
- Lead and mentor a team of 8-10 students that emulates a real work environment using Agile methodology, setting and staying track of deadlines
- Facilitate daily standup meetings to build camaraderie, facilitate sharing of ideas and work progress, and deliver supplemental lectures on related engineering topics

---

EDUCATION

Jul 2019 – May 2020   Full Stack Web Development & Computer Science

Lambda School – Remote

- 9 month accelerated program with an immersive hands-on curriculum with a focus on computer science, software engineering, and web development.
